

A photograph of a science laboratory setting. Several students, mostly wearing white lab coats, are gathered around wooden tables. They are engaged in various activities: some are looking at laptops, others at tablets, and one student in the foreground is holding a tablet with a small orange object on it. In the background, there are wooden cabinets, a sink area with various bottles and containers, and large windows letting in natural light. The overall atmosphere is one of active learning and collaboration.

We Teach Kids, Not Subjects

# Inquiry Driven

A young woman with long dark hair, wearing glasses and a white lab coat, is seated at a wooden desk in a classroom. She is focused on her laptop, with her hands on the keyboard. In the background, other students in white lab coats are seated at similar desks, also working on laptops. The classroom has a warm, orange-toned wall and a wooden floor.
