

Schools as Smart & Connected Communities: Stakeholders

Carrie Tzou

University of Washington Bothell

LIFELONG AND LIFEWIDE LEARNING

Stakeholders in the S&CC conversation
should cut across the learning ecologies
of learners' lives...

**...and our work can
strive to create
innovative
partnerships between
these entities**

Two examples:

- Badges for College Credit
- Robotics for family learning

Digital Badges for College Credit: Motivating Learning in Informal Science Programs Through Digital Badges

Stakeholders: informal science education institutions (multiple), college faculty (disciplinary experts), learning scientists)

Purpose: translate learning in informal spaces into college credit; recognize learning in diversity of spaces

Robotics for family learning

- Design for multigenerational learning in local communities
- Stakeholders: informal science institutions, libraries, community center, university, practicing engineers, families
- Purpose:
 - leverage expertise from each stakeholder &
 - design learning environments for families...
 - where they learn, in their own languages, leveraging their cultural & linguistic resources
